### PROFESSIONAL SUMMARY

User-centered UI/UX and Product Designer with hands-on experience across the end-to-end design process — from user research and wireframing to high-fidelity prototyping and usability testing. Skilled in Figma, design systems, and accessibility-focused design (WCAG), with working knowledge of front-end technologies (ReactJS, Flutter, HTML/CSS) that supports close collaboration with engineering teams. Award-winning designathon competitor with a track record of turning complex problems into clear, intuitive digital experiences.

### SKILLS

- UX/UI Design:** User Research, Wireframing, Prototyping, User Flows, Information Architecture, Interaction Design, Usability Testing, Design Systems, Accessibility (WCAG)
- Design Tools:** Figma, Adobe XD, Adobe Illustrator, Photoshop, Canva, Sketch, Blender
- Front-End Development:** HTML, CSS (Grid & Flexbox), JavaScript, ReactJS
- Mobile Development:** Flutter, Android Studio
- Core Strengths:** Communication & Teamwork, Problem Solving & Analytical Thinking, Creativity & Design Thinking, Leadership & Mentoring, Workshop Facilitation, Time Management & Multitasking

### PROFESSIONAL EXPERIENCE

#### VTN Multi Services (Pvt) Ltd

Dec 2025 – Present

UI/UX Design Intern

- Design user-centered interfaces and interactive prototypes in Figma for web and mobile applications, from concept through developer hand-off.
- Conduct user requirement analysis and translate business goals into clear product and design requirements.
- Create wireframes, user flows, and high-fidelity UI designs grounded in usability best practices.
- Run iterative usability testing and feedback cycles to continuously refine interface clarity.
- Collaborate closely with developers to align UI designs with front-end implementation.
- Maintain design consistency through reusable components and scalable design systems.
- Apply core UX principles — visual hierarchy, spacing, and accessibility — across all deliverables.
- Contribute to product discussions and design reviews, presenting design rationale to cross-functional stakeholders.

#### Impact

- Improved usability and clarity of core product interfaces based on user feedback.
- Reduced design-to-development handoff gaps through structured wireframes, prototypes, and documentation.

### PROJECTS

#### Alerta – AI-Powered Emergency Alert & Rescue Coordination System

Product Design Project · Jan 2026 – Mar 2026

- Designed a complete emergency response system covering SOS alerts, hazard maps, and real-time situational updates.
- Created fast, low-friction UX flows optimized for high-stress, time-critical decision-making.
- Built wireframes and interactive prototypes in Figma to validate flows before development.
- Structured information architecture for rapid access to critical emergency actions.
- Prioritized accessibility, speed, and clarity throughout the design process.

#### Impact

- Won 1st place at SEUSL Designathon 2026 for this system.
- Improved emergency response UX with faster decision-making and clearer interaction flow under pressure.

**Aura – AI Health Guardian App**

Product Design Project · Mar 2026 – Apr 2026

- Designed an AI-powered health-tracking mobile app end-to-end, from UX research and problem definition through high-fidelity prototypes.
- Built wireframes, user flows, and interactive prototypes in Figma covering the full user journey.
- Designed health dashboards (stress levels, heart rate, SOS alerts) with accessible, easy-to-scan data visualization.
- Explored gesture-based and AR-inspired interaction concepts for hands-free use cases.
- Developed a scalable design system to maintain visual and interaction consistency.

**Impact**

- Delivered an end-to-end product prototype that improved the clarity and usability of complex health data.

**EDUCATION**

---

**Bachelor of Information and Communication Technology (Hons)**

Jan 2022 – Present

South Eastern University of Sri Lanka, Ampara

**Diploma in Graphic Designing**

Apr 2024 – Aug 2024

Marazin Academy, Kalmunai

**Diploma in English Language**

Apr 2021 – Sep 2021

ICBT Campus, Batticaloa

**CERTIFICATIONS & TRAINING**

---

- Google UX Design Professional Certificate – Foundations, Prototyping, and Research (Google)
- Accenture Digital Skills – User Experience
- Catalyst Youth Facilitator Training Program – Level 01, International Youth Alliance for Peace (June 2026 – Present)

**AWARDS & ACCOMPLISHMENTS**

---

- 1st Place Winner – SEUSL Designathon 2026 (Alerta – AI-Powered Emergency Alert & Rescue Coordination System)
- Top 10 Finalist – SLIIT Designathon, UI/UX & Product Design (2025)
- Top 10 Finalist / Top 25 Selected – HackLikeAGirl 3.0 (2026)
- Figma Workshop Instructor – Led training sessions on prototyping and design systems
